OUR SERVICE TO YOU

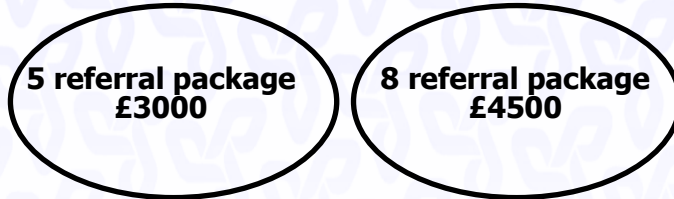

Our Family Support team can offer support to families who have at least 1 child under the age of 18. We take a child focused approach to supporting families, ensuring that the child or children's interests are at the heart of our work with the family

We also promote a person centred and solution focused approach by keep the families at the heart of decision making. It allows service users to become empowered to make informed choices based on their needs. From this we are able to identify holistic needs and work towards outcomes with families where there has been a positive change in their family environment.

We can help tackle a range of issues within the family setting. Each area of support is tailored to the family and individuals. Some examples being:
